

## Digital in/outdoor thermo-hygrometer - operating instructions

### DTH-74 Specifications

1. IndoorTemperature Range:-10 C~50 C( 14F~122 F)
2. OutdoorTemperature Range:-50 C~70 C(-58 F~ 158 F)
3. Outdoor Humidity Range:10% to95%RH
4. SamplingTime:10seconds
5. Accuracy:±1 °C; ±5%RH
6. Power:1.5VAAA\*1pc

### Functions

1. Display out temperature and humidity by external sensor
2. Check temperature by sensor in plastic case
3. Record maximum and minimum temperature and humidity automatically
4. Celsius and Fahrenheit temperature switchable
5. Suction cup fixwire and clip or stand fix body

### Buttons

**【MAX/MIN】** Press to display temperature and humidity maximum and minimum

**【IN/OUT】** Press to display in or out temperature

**【C/F】** Switch temperature between Celsius and Fahrenheit

### Attention

1. The thermometer does not have any special shock-proof design, try to avoid dropping.
2. The thermometer is a non-toy product, need to be used under adult guidance.
3. All materials used on the product are environmental friendly and can be recycled,

Will not pollute the environment
